

# Discover the World Class Leader in Waterborne Technology Since 1982

**Allstates Coatings Company<sup>®</sup>** ... is totally dedicated to providing the most technically advanced, environmentally friendly, competitively priced products available today. With our outstanding service and strong commitment to research and development, we've become a world leader in providing water-based technology to the pavement maintenance industry, retail home repair, sports field marking, property management, oil field and industrial coating user.

## ORDERING INFORMATION

### PRODUCT AVAILABILITY

Our products are available through well-established quality distributors and manufacturer's agents nationwide. For your convenience, a current listing is inserted inside the back cover. We are constantly reviewing our distributors' and agents' performance, which may alter the current listing. Call us at 1-800-358-3020 if there is no one listed in your area, or if other assistance is needed.

### PRICES:

Purchase prices may vary with different distributors, agents and locations. Quantity discounts may be available. Contact Allstates for your nearest distributor or agent.

### FACTORY DIRECT:

If one of our distributors or agents cannot serve you with your choice of Allstate's products, we welcome the opportunity to serve you directly. We offer easy ordering, expert advice, complete product information and courteous customer service. Call Allstates Coatings Co. at 1-800-358-3020 (8 a.m. to 5 p.m. CT Weekdays), Fax 24 hours a day at 903-845-5626 or E-mail at acc2@internetwork.net. Most orders are shipped within 24 hours. If we are unable to fill your order immediately we will give you a scheduled ship date.

### PACKAGING:

Most of the products are available in one (1) gallon cans or pails, five (5) gallon pails, fifty-five (55) gallon steel drums and two hundred seventy-five (275) gallon tote tanks.

### PAYMENT TERMS:

Our terms are Net 30 Days to rated firms (subject to late payment charge of 1 1/2% per month). If you are not a rated firm, but wish to establish credit, we will need one bank reference and three trade references with addresses and phone numbers. Credit checks may take 1-2 weeks.

### LOSS OR DAMAGE:

The carrier is responsible for any losses or damages sustained in transit. Claims should be made promptly against the carrier. Be sure any shortages or damages are noted on the carrier's delivery receipt and initialed by the driver. We will gladly assist you in securing adjustment.

### RETURNS:

No returns will be accepted without our prior approval. Credit for such authorized returns (subject to condition of material) will be issued at the original purchase price less a 25% restocking and handling charge. Transportation charges will be for the account of the customer.

# SEALER ADDITIVES / PREPARATION MATERIALS

**Make Your Sealer Dry Quicker, More Resistant to Fuels and Oil, Wear Longer and Blacker with Allstates Coatings Company® Additives.**

**Prevent Bleeding Through of Oil and Gas Spots with Allstates Coatings Company® Oil Spot Primers.**

# Coal Tar Emulsion Sealer Additives

## *ALT-644 Insta-Dri® Sealing Additive*

- 60% faster curing time
- Power steering mark and tracking reduction
- Improved suspension of the aggregates
- Deeper jet black color
- Improves resistance to oils, fuels, grease and chemicals
- Less expensive than other additives

## *ALT-604 Poly Tough®*

- Speeds sealer drying and curing time
- Improves surface flexibility and toughness
- Improves deeper jet black color
- Enhances resistance to oils, fuels, grease and water
- Does not contain health hazardous Acrylonitrile

## *ALT-614 Poly Tough Plus®*

- Recommended on any surface with high traffic or areas with severe weather patterns
- Increases sealer tensile strength or flexibility, sand aggregate bonding and suspension
- Improves curing time and high viscosity build up
- Improves deeper jet black color of sealer
- Enhances resistance to jet fuels, oil, grease and oxidation
- Does not contain health hazardous Acrylonitrile

# Asphalt Emulsion Sealer Additive

## *ALT-612 PTAS®*

- Improves sealer bonding – even to polished stone
- Provides fast curing, toughness, and greater flexibility
- Improves the deep jet black color of asphalt sealer
- Provides resistance to oils, fuels, grease and water
- Dramatically improves UV ray fade resistance

## *ALT-644 Insta-Dri® Sealing Additive*

- 60% faster curing time
- Power steering mark and tracking reduction
- Improved suspension of the aggregates
- Deeper jet black color
- Improves resistance to oils, fuels, grease and chemicals
- Less expensive than other additives

# Oil Spot Primers

*ALT-602 Poly Oil Sil*<sup>®</sup> - Concentrated formula allows for dilution up to 1 part Poly Oil Sil and 2 parts water.

*ALT-619 Oil Seal Primer* - Ready to use, no mixing required.

- Quick drying modified barrier coating
- Promotes adhesion over oil, chemical stains, grease and gasoline spots
- Easy to use on any asphalt surface
- Apply by roller, spray, broom or brush

# Tack-Cote

*ALT-650 Tack-Cote*

- Rejuvenates and promotes adhesion
- Used on any oxidized asphalt or alligatored area

# CRACK SEALERS

- Safe
- Environmentally Friendly
- Durable
- Ready to Use
- Quick Clean-up
- Economical
- Easy to Use
- No Costly Hot Pour Equipment

# Cold Pour Crack Sealers

## *ALT-654 Super Flex<sup>®</sup> - Premium Grade*

- Low and high temperature durability
- Superior flexibility and quick curing
- No high temperature tracking or cold temperature cracking
- Seals cracks up to 1" wide in asphalt and concrete

## *ALT-651 Flex Crac<sup>™</sup>*

- Flexible and durable
- Excellent flow properties with no pinholing
- Seals cracks up to 1" wide in asphalt and concrete

## *ALT-656 Pourable Crack Sealer*

- Economical
- Quick curing
- Seals cracks up to 1/2" wide in asphalt and concrete

# Large Crack and Gatored Pavement Sealers

## *ALT-652 Gator-Aid<sup>®</sup> - Mastic Alligatoring Patch*

- Specially designed for alligatored areas
- Durable and resilient in all kinds of climates
- Economical – no digging or heavy equipment needed
- Safe and easy to use – just squeegee
- Also used to repair cracks over 1" wide and birdbaths

## *ALT-653 Trowel Flex-Crac<sup>™</sup>*

- An asphalt emulsion with mineral fillers, ground rubber and plasticizers
- Designed for heavy duty repairs
- For filling cracks in excess of 1"
- Easy to use, just trowel in

# Traffic Loop Filler

## *ALT-655 Duraflex<sup>®</sup>*

- Designed for sealing inductive wire loops and leads imbedded in asphalt and concrete
- Rubberized asphalt emulsion modified with plasticizers and low density fillers
- One component, cold pourable
- Provides cathodic protection with excellent durability and flexibility

Company® Offers both  
a Premium and  
Standard Line of  
Traffic Paints to Meet  
Your Needs**

# TT-P-1952b Traffic Paint

## *Airfield Pavement Marking Paint – PREMIUM*

- ALT-615 White, ALT-616 Yellow
- Meets federal specification TT-P-1952b
- For interior and exterior use on asphalt and concrete surfaces
- Modified acrylic latex emulsion
- Tough, durable and bright
- Ready to use

# Fast Dry Traffic Paint

## *Insta-Dri<sup>®</sup> Waterborne Acrylic Traffic Paint – PREMIUM*

- ALT-635 White, ALT-636 Yellow, ALT-637 Handicap Blue, ALT-638 Firelane Red, ALT-639 Black Out

## *Fast-Dry Acrylic Waterborne Traffic Paint*

- ALT-632 White, ALT-633 Yellow
- Rapid drying acrylic latex
- High solids, environmentally advantageous
- Tough, durable and attractive
- Able to stripe in early spring, late fall and at night
- Ready to use

# Latex Traffic Paint

## *Poly Allstates Line Paint – PREMIUM*

- ALT-605 White, ALT-606 Yellow

## *Traffic Line Paint*

- ALT-617 White, ALT-618 Yellow
- Acrylic latex emulsion
- Exceptionally tough, durable and attractive
- Ready to use

# Alkyd Based Zone Marking Paint

## *Chlorinated Rubber-Alkyd Zone Marking Paint – PREMIUM*

- ALT-815 White, ALT-817 Yellow

## *CRA Zone Marking Paint*

- ALT-856 White, ALT-857 Yellow
- Meets federal specification TT-P-115E Type III
- Oil base, high quality traffic marking paint
- For use on asphalt and concrete surfaces
- Dries rapidly
- Never to be used over freshly sealcoated surfaces

## *Alkyd Zone Marking Paint – PREMIUM*

- ALT-825 White, ALT-827 Yellow, ALT-819 Black Out, ALT-821 Firelane Red, ALT-831 Handicap Blue
- Oil base line paint
- Meets federal specification number TT-P-85E
- Available in standard striping colors
- Not recommended over fresh sealcoat materials

# FIELD MARKING PAINT

## *ALT-672 Lightning Graphic®*

- Professional quality field marking concentrate paint
- Dilute 1 part paint to 2 parts water; additional coats may be diluted more
- Air Brush Color System formulated with acrylic polymer emulsions
- All colors are available
- Aqueous based; does not contain any mercury or lead pigments

## *ALT-624 Athletic Field Marking Paint*

- A concentrated field marking paint – Dilute 1 part paint to 1 part water
- Designed for use on all types of athletic fields or natural turf
- Water based and does not contain any mercury type preservatives
- Safe to use; will not harm natural turf, and enhances grass-roots growth
- Harmless to the skin and eyes
- Only available in White

## *ALT-692 E-Z Off™*

- Easy to remove with pressurized water
- Durable in rain, dew and high humidity
- For use on athletic areas, educational graphics, logos, natural or artificial turf and asphalt or concrete surfaces
- Concentrated formula, dilute with water
- Great for changing out graphics on multi-use surfaces
- Acrylic polymer emulsion
- All colors are available

# TOOLS & ACCESSORIES

## Retrofit Air Pump

### *CRAC SHOT™ Drum Pump*

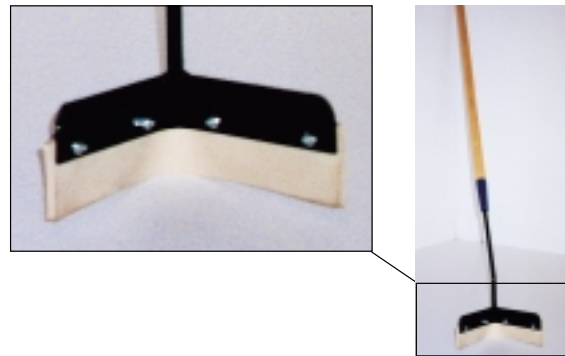

- For applying cold pour crack sealers
- One component, air powered pump system
- Economical – thousands less than hot pour setups
- Application rate same as hot pour
- Designed for 5 minute preparation
- Designed for 5 minute water cleanup

## Squeegees

### *V-Shaped Crackfilling Squeegee*

- For hot or cold crackfillers
- One piece construction with wood handle
- Gum rubber blade
- Push or pull models

### *Standard Sealcoating Squeegee*

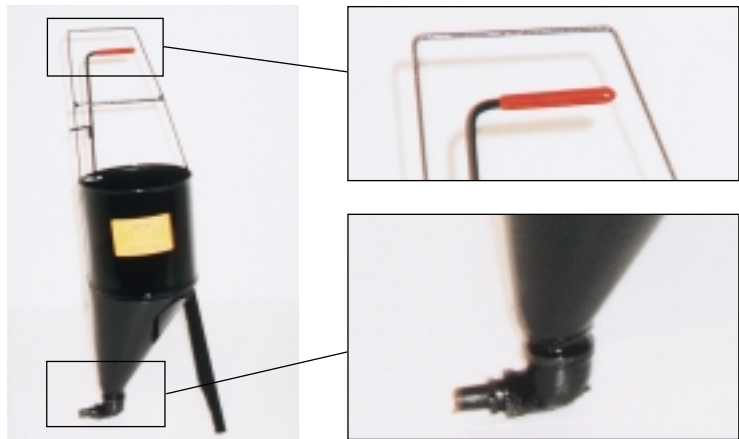

- Anodized 6' aluminum handle
- Bolt on aluminum brace kit
- Neoprene blade

# Pour Pots

## *Crackfiller Pour Pots*

- Pour hot or cold crackfilling material
- 3 - gallon capacity
- Durable all steel construction
- Fingertip control valve
- With/without legs and wheels

# Bedding Material

## *Backer Rod*

- Available in 5/8" and 7/8" widths
- Good for 1/2" and 3/4" cracks
- Rolls are 100 feet long

# Glass Beads

## *Highway Spec. Glass Beads*

- For high visibility and longevity
- Fifty pound bags
